A combination of Rock,World Beat,Psychedelic,Sci-fi * Original sound very deep vocals with menacing lows pushing subsonic air 9 MP3 Songs WORLD: World Beat, ROCK: Progressive Rock Details: Henry The Horse is a collective of musicians and artists expressing themselves on various tracks of our CD, Horse Spirit Rising. Throughout history music has freed the people through the spirit of song, an international language all can understand. Through the need for greed and the quest for the almighty dollar, it can become a plastic product. We still believe in the spirit of music and remember what we loved about it in the first place. We will not be trapped or motivated by that intent. We will ride out into the cosmic plains as veterans of a thousand psychic wars in quest of the pure intent.
