An ambient yet in your face guitar driven rock that deftly floats between emo and Modern rock 13 MP3 Songs ROCK: Modern Rock, ROCK: Emo Details: see bio. on "Belongings" album page "An ambient yet in your face guitar driven rock that deftly floats between emo and Modern rock. An absolute must have cd." "Joshua Bingaman's Passing Pleasures is a modern rock masterpiece of haunting, eerily beautiful songs. Lyrically, Joshua's songs deal with the spiritual hinterlands of struggle against the world. Wrapped in swirling layers of acoustic and electric guitars, ambient keyboards, fluid bass, and occasional drums, Joshua's intimate, yearning vocals provide a near-perfect setting for these musical vignettes of longings. Passing Pleasures provides the opportunity for pleasures bound to be more than passing." "Joshua Bingaman is a true artist in the sense that his music is a meditation of the inside of Joshua's life's ups and downs. A poet and an artist, you gotta check out San Francisco's Joshua Bingaman." see additional review at: westmont.edu/horizon/horizon01/10_16_01/entertainment/story4.shtml
