The remixes of SIRPAUL's Smash Dance Single "Muthafucka" featuring remixes by SIRPAUL, Alex Lauterstien, Larry Monteleone Keven Meroda. 9 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: House Details: SIRPAUL's new dance single Muthafucka is a throw-back to the basics of dance remix culture. The original track starts with a simple breakbeat and slowly morphs into infectious break-house reminiscent of the early days of Tunnel and Sound Factory. The strength of the track lies in its sexy, breathy vocals which were just screaming to be remixed. The remix EP features nine interpretations by some of today's hottest Dance Music Producers and DJs: Alex Lauterstein, Keven Maroda, Larry Monteleone and SIRPAUL himself. Each producer was hand picked by SIRPAUL and renders their track unique: The Atomix version, a collaboration between SIRPAUL and Alex Lauterstein, is a climactic number that brings to mind classics like Atom Bomb and Welcome to the Factory. Keven Maroda's take on Muthafucka is a refreshing fusion of tribal beats and hard anthem synths. Larry's Test Drive is a dark, sexy Electro-House journey that leaves the listener in a sexual frenzy. SIRPAUL switches into producer mode on two versions: SIRPAUL's Muthafuckin House Mix SIRPAUL's Dark Dub. Muthafucka is already in heavy rotation at some of the world's hottest nightclubs; APT, Cielo, Crobar, Roxy, Avalon, Lotus, SBNY, Le Red Light (Paris), The Monkey Club (Paris), Sona (Montreal), Stereo (Montreal), Twist, Mansion Back Door Bambi (Miami) to name a few. Recently, SIRPAUL performed Muthafucka to a sold out crowd at the Futuropride Circus Party to kick off Pride 2006 with DJ Alex Lauterstein at SBNY.
