

## Mp3 The Donuts - 5-4-5

[DOWNLOAD HERE](#)

A twigs-and-seeds collection of highly melodic, guitar based power pop culled from the Donuts' first four albums, plus their debut EP in its entirety. 18 MP3 Songs POP: Power Pop, ROCK: Roots Rock Details: The Donuts™ Follow-Up Their Acclaimed Grammy Nomination Nominated Album and Follow-up the Follow-up Two New Albums; One New Nut; Still No Fat Slo-Mo Turns On The Love Light Youve read this far, you know the deal: Three years back Philadelphias own Donuts dropped Sgt. Jacks Pepper Mill, the fastest-selling record in Chapter 7 Records storied fifteen-year history; they followed quickly with the critically-acclaimed Buckley and struck soon again with The Monkey Wrench Gang. Payola checks couldnt bounce before the Nuts had earned their first, second and third Grammy nomination nominations. And thus did the Kings of Pirate Radio rest? Did they let the trail go cold and cast comfortably about their footnote of near-achievement? Did they fill their rice bowls with rave reviews and simply decide to nap? You bet they did. The Donuts are shiftless and lazy, and laughed like lords while for eighteen months the world went wanting for the greasiest garage-born power-pop likely to be plugged in this press release. Entire babies came into being, Fathead drummed through his own puberty, and Dieter Affeschlasselgruppe no relation to Andy Affeschlasselgruppe cruised in to play keys. But fear not. The Nuts are back like a rash and rapt on catching the Doublemint twins with not one but two new records: Jet Ear, birthed in the studio and bound for glory, and 5-4-5, a twigs and seeds collection of outtakes, demos and the Nuts debut EP unavailable til now outside of Japan. For the fourth and fifth times, Mike Slo-Mo Brenner sits in the producers perch with wizardry so apt that it actually takes longer to play a Donuts record than it does to record one. And length matters to the Nuts: Jet Ears thirteen bits of bad luck barely break a half-hour; 5-4-5 adds five more tracks and only seven minutes. The Nuts never bore us with a lot of so-called music. I think Jet Ear is our strongest work to date, says head blame-taker J. Bearclaw. The

first three records were great, but we had to satisfy a lot of outside demands fans, press, and threats from our label. With Jet Ear, we made the record we knew we had in us. For the first time since their last album, the Donuts embrace the moment. They could have taken the obvious alt-rock avoid-the-obvious route. But the Nuts dont attend conventions and so go full-frontal on the war. Jet Ears first single, Guantanamo, is hardly some jive-ass aging-hipster fake wanna-be Cuban joint a la Ry Cooder. He didnt return calls. So the Nuts mix it up with mariachi horns, a marshal beat, words that rhyme, and a melody more sly than Rocky Balboa. Justice In The Desert moves right to the source: Might makes right, boys, and thats the bottom line. The ponderous Bethlehem might have something to do with the war. Donuts words are rarely all that clear, but its at least set in that part of the world. Unless its about Pennsylvania. The Nuts carry the war to 5-4-5 with The Sign Up: Hey, kids sign up today/Were gonna take you away. This isnt just the usual Nuts kidnapping the kids again, or waxing poetic about child abuse. They do all that in Little Teddy and Charlie One vs. Ruby Red. No, this is war. And wha-ut is it good for? About a half-dozen songs spread across both albums. After so long an absence the Donuts get right back on the bike and recycle. Fans will thrill to find all four tracks from the Englands Newest Hitmakers EP in their entirety, in their original sequence, with absolutely no remastering or other value-add whatsoever. Relive Reading Tea Leaves just as you heard it on Pirate Radio. Forget about those expensive imports; youve got 5-4-5. I think 5-4-5 is our strongest work to date, says head blame-taker J. Bearclaw. The first four records were great, but we had to satisfy a lot of outside demands fans, press, and threats from our label. With 5-4-5, we made the record we knew we had in us. Or at least below us, on the cutting room floor. Good things come in threes. You have two new Dounts albums to buy. The rest is up to you.
