SALES LEAD GENERATOR EFFECTIVE SALES LEAD GENERATOR OR SURVEY CGI SCRIPT Easy to setup CGI Script that generates highly targeted sales leads or perform surveys by allowing your website visitors to register and download a free sample of your merchandise, a coupon, discount code, tutorial, information, or any other incentive. Requires visitor to enter valid email address in order to receive free download access. Registration form may be customized - only required field is email field and opt-in checkbox. All information collected in the form is stored in a flatfile database which can be easily imported into Excel or Access. Also works with our Xtractor Pro Mailing List Manager and Microextractor CGI Scripts to send out more information about your company if they opt-in. Script allows registrants to opt-out so there is no worry about sending email to anyone that
