The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. F2 is one of the three papers that form the ACCA Knowledge level. It teaches the basics of management accounting. The syllabus has six sections: 1. The nature and purpose of cost and management accounting 2. Cost classification, behaviour and purpose 3. Business mathematics and computer spreadsheets 4. Cost accounting techniques 5. Budgeting and standard costing 6. Short-term decision-making techniques. Much of this was part of Paper 1.2 under the previous syllabus. Pricing has been removed from this new syllabus and budgeting has been added. International is now the ACCA main stream and paper F2 uses International terminology. This study text has been reviewed by the examiner and concentrates on the key areas of the syllabus, taking into account the examiner's guidance on how topics will be examined. The text has a step-by-step approach to topics and lots of exercises in which you can practise the calculations. We provide a detailed chapter on spreadsheets and a basic maths appendix, for those who need some revision in the area. BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.
