Authority Traffic X "Traffic Generation Strategies" Enough Is Enough! We Tell All - Our Top 5 Traffic-Sucking Secrets That Will EXPLODE Your Sales... Never Before Released! If you have any intention at all of making more than \$300 per month online, this is going to be one of the most important letters you'll read in a long time. And if you follow our step-by-step instructions, we guarantee that you'll be able unlock the unstoppable cash-generating potential of your website... even if you've never made more than five bucks from it. You'd be surprised how a few simple strategies can easily turn your \$5 per month website into a cash flow MONSTER... and we want to show you how it's all done. We've been using these exact same strategies for years... and now for the first time ever, we're going to spill the beans. "Here's The Path Many People Take When It Comes To Making Money Online:" Mr. John Doe spends a little time setting up a website, sits back and waits for people to discover it... hopefully, some of them will buy something. A few days pass and his web analytics show that the site has had a total of 13 visitors. "Not a bad start", John would think to himself, "...but I think I can do better". To get more traffic to his site, he writes 10 articles and submits them to the popular article directories... after all, that's what

everyone is doing, right? Again, he sits back and hopes for the best. A week passes, and John sees a small trickle of visitors to his site... "Oh hey look, I'm getting more visitors... great!" John says. He checks his affiliate account, but no sales yet. "It's only a matter of time before I get some sales... I just have to submit more articles!" John decides. And so, he continues writing articles and submitting them over the next few weeks. The traffic to his site is increasing, but at a slower pace now. There is an average of 15-20 visitors per day to his site... a good improvement from before, but still no sales. John is starting to lose the enthusiasm he had when he first started out. "Is making money online really possible at all?" he begins to doubt. Suddenly, out of the blue one day, John checks his affiliate account and is delighted to find that he has made one sale for \$23.25! Thrilled, he writes another 10 articles and submits them. He's definitely on the right track! Over the next two months, John continues to make a sale or two per week, as he churns more and more articles. His reward is an average of 5-7 sales a month, netting him about \$140. But John is not happy. The \$140 per month is the result of hours upon hours of writing and submitting articles... he realizes that if he had spent the same amount of time working at \$7 an hour, he would have made much more money! And so John, now tired from writing over 100 articles and dismayed at the results, decides to give up, at least for now, as he looks for the next income-making opportunity.
