Our music is alternative rock. The actual name of the genre is DistortAcousticFunkSka-ishRock. 10 MP3 Songs ROCK: Modern Rock, ROCK: 90's Rock Details: You remember the theme song from the Donny and Marie show, right? It talked about how they were "a little bit country, and a little bit rock n' roll," and what not. Think of that song when you think of "Day of the King," since it more than describes the contents of this compact disk. You'll hear bits of funk, ska, jazz, acoustic rock, hard rock... all sorts of good stuff. We feel that this CD is 10 times better than anything your average Joe six-pack has ever had in his stereo, but you do not have to take our word for it. Go to the left side of the screen, click on the songs, and listen. If you like the songs, buy the CD. After you receive "Day of the King," you will feel more fortunate than the guy who first sliced bread!
