Although, not wishing to be categorized, our style could be described as contemporary folk, influenced by a varietal of styles and inspired from the heart. We have been playing music in the Finger Lakes region of New York for many years collectively, but officially teamed up in the fall of 2003. Our sound is defined by the combination of original reflective lyrics, resonating harmonies and down to earth acoustic accompaniment. You can find us playing in a variety of places, including music festivals, wineries, cafe's and coffee shops, even private parties and celebrations.
