

## Mp3 Danney Ball - Songwrangler

[DOWNLOAD HERE](#)

"A Real Kick In The Pants" these tunes will have you smiling and wanting more. Danney even threw in a couple of great original love ballads ... and several of his novelty hits like his "I Traded In My Horse For A Harley" ... Recorded in Nashville ... 18 MP3 Songs COUNTRY: Western Swing, COUNTRY: Traditional Country Details: Although we perform our live gigs as a large (as many as 16 pieces) Western Swing Showband, this CD was recorded in Nashville with studio musicians ... and although when we do our live performances we sing and play mostly older country standards ... this CD is all tunes I have written and charted over the years as an independant country soloist. We release the first single, "The California Earthquake Song" on my birthday May 18th, and will follow it up with a tour here in my home state of California. This will be followed by the second single release to country radio in January of 2006. That will be, "Let's Drive Friendly" ... as you probably know we do have lots of little "quakes" here in the state ... but the "BIG ONE" might be coming anytime ... and you have no doubt heard about our freeway shootings ... so the tune I wrote as an anti-road-rage song will be timely - ha! Thanks to all of the DJs who have ordered this CD and are playing it all over the world ... I hope to meet you on trail and thank you personally for the wonderful work you do in support of good music written and performed by us independant artists ... you are living proof that the small talented musician can make it in the wild world of real quality traditional country music. THANKS! Danney Ball - America's Songwrangler To be added to my newsletter send an email address to: [info@songwrangler.com](mailto:info@songwrangler.com)
