Clean, sexy, real life situations, inviting, smooth, groovin, and easy listening 9 MP3 Songs URBAN/R&B: R&B Pop Crossover, JAZZ: Smooth Jazz Details: Dear Viewers, There's no shortage of talent growing up in Southern California, that's for sure. The ability to captivate, and inspire, while creating a real life, relatable experience for the listener are a few key ingredients to becoming a successful writer/producer. Donte with his life experiences and innovative ideas is on his way to becoming one of the most admired in his craft. History: At the age of 12 while singing in the school choir at Dodson Middle School in Rancho Palos Verdes, Ca, was when I first realized I had the gift of song. From that moment on, I was recognized for my musical talents as I went on to further develop my gift in the high school choir at San Pedro High, San Pedro, Ca, and Eisenhower High School, Rialto, Ca. During the High School years I began developing the craft of song writing and was active in singing groups and the New Hope church choir, San Bernardino, Ca. At the Freedom mark of 18 years, I crossed paths with a phenomenal young producer Donell Hogan. Together we mastered the art of music production, writing, and artist development and shortly became and still remain a hot commodity for local talent, independent artist and labels. Current: I am currently writing and producing projects expected to be release in 2007. Future: Working non-stop, I'm carving my way into the musical hall of fame. My goal is to leave a legacy behind for his family and generations to come. While remembering my life experiences, church roots, and creative instincts, timeless and meaningful songs have become an expected result of hard work and the best is yet to come!!!
