"Moir's relentless moshathon Without Place contains all the key components of an effective metal album: Gruff, intimidating vocals; a drummer who seems to have bypassed his kit and gone straight to pummeling listeners' skulls; anti-religious rants;" Miller The Pitch Weekly "Finally, the set everyone was waiting for - Moir. They quite literally brought the house down; parts of the El Torreon ceiling lay in crumbled pieces on the stage after their set. After seeing this violent onslaught of heavy metal, I predict it will truly be the year of Moir. The moment they took the stage and unleashed the brutality, the crowd was willing to submit to their every whim. Moir put on a commanding show with nothing but beat-your-face-into-a-brick-wall."
