Lo-Fi indie rock 12 MP3 Songs ROCK: Psychedelic, ROCK: Emo Details: Neutral Drop is a project of Mike Wilson that has been going on for years. These recordings show a completely different side to the many different sounds Haegers Bend creates. Before joining the band Mike had done various soundtracks for some college movies including "Jennifer's Crying". All instruments, vocals and noises recorded by Mike. This collection of songs includes some outtakes from the movie "Jennifer's Crying" as well as "The Rooftop" which is 10 minutes of various sounds and music recorded on the roof of a house. Most of these songs were passed around on tape only to friends of the band. This is the first time they have been put together for all to enjoy. These songs also show the many different guitar styles Mike has used to blend a little crazy with a cool mellow trip to ride on.
