Details: Ever since their first performance in 2006, the Belgian trio No Angry Young Man has touched many hearts. In consonance with the band's philosophy, they build their reputation the old-fashioned way. They earn it. Timeless music combined with an energetic live act and a lot of improvisations is the basis of No Angry Young Man: in an acoustic setting, folk, pop and traditional jazz is transformed into something new. Along the years, the band played shows on famous Belgian festivals and venues like Maanrock, STUK (Leuven), Arenberg Schouwburg (Antwerp) and Dranouter. The cello often takes the role of lead guitar and in combination with 3 vocals, No Angry Young Man creates a unique sound. The carefully chosen instruments - guitar, piano and cello - shape the overall sound. Occasionally, the band invites guest musicians on stage. Be prepared for a set of intimate, ambient and outstandingly powerful moments. The band's first title less release was recorded during the winter of 2008, with producer Bai Kamara Jr. (Vaya con Dios, Youssou N'Dour) and sound engineer Philip Masure (Urban Trad, Lais, Ambrozijn, ...). The mixing was done by Marc Francois (Ozark Henry, Novastar, ...).
