Electronic world beat 7 MP3 Songs WORLD: World Beat, ELECTRONIC: Experimental Show all album songs: The Bread Is Rising... Songs Details: With inspiration taken from the far corners of the earth, a small group from Las Vegas has set out to unite the worlds sounds within their songs. Pan De Sal is a world-beat experimental pop band that formed in the winter of 2006 as a collective where different musicians from many genres can come together to create music not found anywhere else. The core group Sheila Hall (aka Orange Sheila), Judi Brown (of Love Pentagon), and Jeff Madlambayan (aka The Doodler) doesnt hesitate to use whatever instruments they could get their hands on to contribute to their sound, whether it is a set of turntables, a bass guitar, synth pads, or a didgeridoo. Pan De Sals live shows come with an energetic chaos that draws the audience in to their spontaneous onstage tactics, often giving out maracas, shakers, and other little noisemakers for onlookers to participate. There were way more people onstage than necessary, like it was 4 a.m. in someones living room, and someone had the drunken idea for a jam sesh, described Liz Armstrong, Las Vegas Weekly, of the Pan De Sals first show. Their combination of textures, ambience, and schoolyard chants sculpts the bands overall package. Their lyrics also integrate many different languages French, Tagalog, and Portuguese supporting the idea that music comes from one world despite conflicting political views between countries. The band also advocates a socially conscious agenda; instead of money in exchange for merchandise, they encourage fans to donate canned food and old clothing that can be delivered to the Las Vegas Rescue Mission or the Rape Crisis Center. As a part of the Uno Momentum Sound Collective, Pan De Sal works with and supports other underground bands in the club that features experimental electro music. The Uno Momentum Sound Collective includes other west coast acts such as Ex-Dinosaur, Flaspas, Atole, and Love Pentagon. Pan De Sal is currently writing and recording a seven-song EP they will self-release this

summer.
