Original Bluegrass, Acoustic Country and Americana Music from Singer/Songwriter Sheri Lee 10 MP3 Songs COUNTRY: Bluegrass, FOLK: Traditional Folk Details: A native to Southern California, Sheri Lee was born into a family of musicians in 1960. In her earlier years as a child, Sheri would listen to her parents sing tunes of old time gospel and bluegrass favorites. Although country, gospel and bluegrass were the music of choice at home, Sheri had a love for all music. By the age of six she would sit next to the radio with her ear pressed against the speakers to soak in the sounds and sing along with any tune playing. It was then she would develop her natural talent for picking apart harmonies and teaching herself each vocal part. Sheri would not abandon her roots to her early influences from artists such as The Lovin Brothers, Johnny Cash, George Jones and Connie Smith to name a few, but would discover a new world of music as she grew into her teen years. Artists like The Beatles, Fleetwood Mac and Linda Ronstadt would balance out her appetite for diversities in music culture. At the age of sixteen, Sheri had found her true inspiration and her heart felt calling to Bluegrass. A female artist Sheri had not heard before took her by surprise with her unique singing style and guitar playing. That artist was Emmylou Harris. Sheri instantly gravitated to other artists in that genre of musicians. Ricky Skaggs, The Whites and Tony Rice would inspire Sheri Lee to focus on her guitar playing and song writing skills. Sheri Lee has had many successes through out her life both in family and music. She has found her recipe to balance out the focus on her music career while raising three children with her husband. Lee is credited with writing the anthem for Julian, Ca., appropriately named Julian which is also on her first C.D, More Than Words, under the Tricopolis label. Lee takes pride in surrounding herself with top of the heap musicians while playing live as well as having them as special guests on her recordings.
