We are Sojourn a new salvation in jazz. Celebrate a greater glory with nine outstanding masterworks. Smooth/contemporary jazz 9 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Jazz Fusion Details: Review by Jeff Charney contemporaryjazz A brand new band out of Kansas City, I do believe that this group hit it on the head on their very first try did an excellent job. The title track kicks off the CD with an up-tempo, moving piece that features a nice solo by saxophonist Steve Phillips. In fact the whole band gets into the groove on this one. "E" Jam" is another groove with a memorable hook line through out which reminds me of an old Max Groove (Kansas City native) tune "Midnight Rain." "Road To Damascus" is a very up-tempo song that has the band clicking on all cylinders with the saxophone as the lead. "Mustard Seed" lets the guitar player, Chris Brisciano share the spotlight with Phillips on this tasty track. The band shows its versatility with a straight-ahead piece appropriately called "The Standard" and a Gospel feel good tune, "Blessed Assurance." Playing this CD on the radio got instant reaction on the phones wanting to know more. At present you can only get Slammin' The Groove from the groups web site sojourneth. Check it out, you'll be glad you did. It's better than most of the material I receive.
