URBAN/R&B: Funk, POP: California Pop People who are interested in Marvin Gaye George Clinton Johnny "Guitar" Watson should consider this download. Details: Soul Intelligence is the brainchild of Bay Area keyboardist Allen Blackwell; old skool stew mixed in wit da new. R&B funk, jazz and blues with a dose of hip-hop. Upbeat soul music reminiscent of the 60's soul and seventies funk and jazz fusion of Herbie Hancock and George Duke, just to name a few. This brightly recorded cd is for mature music lovers of all ages; from 5 to 95. Kick back and enjoy. The funk hasn't been recorded and performed like this in years. Sounds just as good in a Toyota as it does in a Lexus.
