Brit-Pop influenced storytelling with a message 11 MP3 Songs POP: British Pop, POP: Piano Details: Stealing Heather's music has been compared to the likes of Coldplay, Keane, Stereophonics, and Nada Surf (with a bit of The Cure thrown in just for good measure). Powerful and insightful, Joshua Aaron's writing evokes the emotion and energy that so many of us can relate to. When asked to explain the meaning behind the name Stealing Heather, Aaron had this to say; "Over the years I've watched as our society has taken a turn for the worse. When I sat down and really thought about it I realized that everything we do stems from the youth of our culture. When I was growing up I'd watch the Smurfs or Garfield on Saturday mornings. Today, everything presented to our children deals with violence and negativity. We are only creatures of our environment and the more we keep presenting our children with these images and sounds the more we will be forced to watch the outcome unfold. We are essentially stealing the innocence of our children. The name Heather just seemed to be the essence of a pure young girl." After five years of writing and recording, the debut CD entitled "6 Minutes To Somewhere" is now available. The band will tour following the record's release and would like to thank all the fans for their support and encouragement. They look forward to seeing each of you when they come to your hometown.
