

MP3 Trans-dimensional Voice - The Perpetual Maybe

[DOWNLOAD HERE](#)

An insane, trippy, electronic music roller coaster flying the listener through painstakingly-mixed, colorful timbres in a dark, yet inviting style. Headphones in a dark room recommended. 11 MP3 Songs

ELECTRONIC: IDM, ELECTRONIC: Electronica Details: Will "The Perpetual Maybe" immerse you in a kind of psychedelic, emotional, musical roller coaster deeply refined and infused with unorthodox timbres (from the perhaps infinite set made possible by computers), wielding them in a way (sometimes with driving beats, sometimes with vocals) grabbing you and creatively exposing my mind, perhaps challenging yours, all leading to what may be one truly great discovery? I don't know.
