

Resolving Environmental Disputes: From Conflict To Consensus - Roger Sidaway

[DOWNLOAD HERE](#)

Resolving Environmental Disputes presents detailed case studies from the key contemporary themes in resource management and environmental protection, such as: access to the countryside for recreation, sustainable forestry, pollution and risks to health, and coastal zone management. The book spans both theory and practice in assessing the relationship between public participation and mediation. It is structured around detailed case studies from Britain, the USA and the Netherlands, which are interspersed with chapters providing explanation and interpretation of the theoretical and practical issues involved. In reviewing the state of environmental conflict resolution, the author examines how and why conflicts occur and whether approaches to conflict resolution based on consensus building could be more widely applied.
