Discover How To Turn a Wordpress Blog into a Paid Members Site that Sells Itself In Less Than 15 Minutes With This Easy-to-Use Plugin Here is what a Good Membership Solution needs to do... * It must be able to show parts of each post to non-members as a teaser to really pull in paid subscribers . * You must be able to accept both credit cards and Paypal and not limit your site to Paypal users only. * It should be QUICK to setup. Literally plug and go . * It should fully automate the subscribing and upgrading process. * It should have an affiliate system so other people will promote your site for you. * It must be secure. There is no point having a system that people can get around and avoid paying you for your hard work. * It must be cheap. No one wants to blow \$80, \$100 or \$300 to set up a membership system. * It

should come with easy to follow installation instructions in both written and video format. * It should be able to manage both free and paid memberships. A Solution that meets all those requirements... The simple fact is that there was nothing that met ALL of those requirements. So I set about creating something that did. Check this out... Introducing WP ClickBank Membership Plugin! * Installs in minutes. This really is super easy. The installation is in two simple steps, a wordpress plugin and a special script to fully automate the clickbank end of things. If youve never installed anything like this before the first time might take you a little longer but most of my friends and customers can install this in under 10 minutes! * Lowest cost Multi-Install Licence ever! Want to use this on multiple sites? No problem, we have hands-down the cheapest multi-install licence. * Teases people into upgrading their membership. You can protect whatever sections of a post that you like. You can limit parts to free members, paid members, etc. Let visitors read some of your information but make them subscribe to see more. This literally makes your membership site sell itself . * Want to redirect to a One Time Offer page after a member has paid to upgrade? No problem! You can do exactly that with CBWP Member. * CBWP Member is fully automated. The process of users registering and upgrading is all done automatically. You can go on vacation for two weeks and people will be able to continue registering and upgrading to paid memberships. This literally is set it and forget it technology. * Zero compatibility issues. Works with all Wordpress themes and is compatible with other plugins that use shortcodes. * Enables you to provide special content to RSS feeds only. * Widest range of payment options. CBWP Members uses Clickbank as the payment gateway giving you an automatic affiliate program and the widest range of payment methods including credit card, check, or paypal. Does that sound exciting?
