Many archaeologists, as primarily social scientists, do not have a background in the natural sciences. This can pose a problem because they need to perform chemical and physical analysis on samples to perform their research. This manual will be an essential source of information for those students without a background in archaeological science, but be a comprehensive overview that those with some science background will still find useful. EAN/ISBN : 9781441957047 Publisher(s): Springer, Berlin, Springer Science & Business Media Discussed keywords: Archologie Format: ePub/PDF Author(s): Malainey, Mary E.
