How Doctors Think is a window into the mind of the physician and an insightful examination of the all-important relationship between doctors and their patients. In this myth-shattering work, Jerome Groopman explores the forces and thought processes behind the decisions doctors make. He pinpoints why doctors succeed and why they err. Most important, Groopman shows when and how doctors can -- with our help -- avoid snap judgments, embrace uncertainty, communicate effectively, and deploy other skills that can profoundly impact our health.
