

## Mp3 Amy Fox - Public Offering

[DOWNLOAD HERE](#)

A walk through with the city streets on a cold day. Music scripted in a title like to Fiona Apple or Tori Amos, with a raw, low-down folky, urban feel. 12 MP3 Songs POP: Folky Pop, Sway Modern Rock Public Offering Songs Details: REVIEW BYTES "...Ms. Fox's infectiously sultry voice combined with musical influences from blues to rock leaves you wondering what sounds are going to tempt your ears next...forlorn vocals and a haunting piano lead you through with the desperate sadness loss brings, but rather than leaving you in this dark place...lyrics remind you that every winter is followed by spring...Listening to "Public Offering" is not just another musical experience, but rather a musical adventure." Shroom, JAM Magazine "Fox has a distinct voice that reminds me of Kate Bush, whose voice I love...every one of the 12 songs on this album is different...The lyrics...are refreshingly real and meaningful...Amy Fox stands out among most of the other women artists out there." AO, INSITE Magazine "She's smooth, multi-instrumental and performing from coast to coast..." "Public Offering" has a soft rock, AAA appeal" N. Casino, ORB Confidential, Musician's Trade Journal "Amy Fox is an artist of refreshing eclectic independence." Chris Van Loan, Intuit, Women of MP3.com
