At the moment Casino Royal is working on their new release which will be hopefully finished early 2007. This 1999 release Long Live the Pro is a 5 track EP of indie pop tunes in the vein of 80ies indie pop bands like The Smiths and The Pixies. To imagine the sound on Long Live The Pros think of The Smiths going wild with lots of electric guitars and synths. The tracks Rejection and Orphan Boy are part of the soundtrack of the feature film Ikarus which was released in cinemas nationwide in Austria and shown on national television in Austria and Germany.
