## **Mp3 Hc Derksen - Choices**

## DOWNLOAD HERE

Mostly Contemporary Gospel but with some Country mixed in - Songs of hope inspiration 11 MP3 Songs GOSPEL: Contemporary Gospel, COUNTRY: Western Swing Details: HC Derksen has just released his second album named Choices. It speaks to listeners about the choices we make as citizens of this great land, and choices we make in our everyday lives. He does it with original, easy listening ballads, some upbeat country swing that will get your feet moving, maybe even dancing, all with heart felt words that can change our lives and help, in the Choices we make every day. The lead song - God Bless America - is a heart rending selection that takes you from the America that the founding fathers envisioned to the America we have today. The America that was once the lighthouse to the people of the world but now struggles to keep its identity in a world that wants everyone to be part of a pluralistic society. The song will have you thinking what you can do to return the USA to the greatness it once enjoyed. Two Hearts into One Light - speaks to young lovers on their wedding day, and the promises they make to each other. He Sat Down - describes the path that Jesus took from Creator to Redeemer. It tells how Christ is the only answer to the question we each have about eternity. A Different Man - speaks of the joy that only personal relationship with Jesus can bring to our lives. Thank you Lord - is a lullaby of praise to God. Rather Than Successful - brings hope to those who are caught up in today's materialistic society and tells them that Jesus is the answer to our problems. The Crown You'll Wear - is a tribute to the pastors who put all they have on the line to serve their congregations and the Lord. Psalms 139 - a dramatic reading of the psalm by Lynn Deprez a gifted story teller and friend of HC. Where can I Go - brings Psalm 139 home - putting to music the thoughts of the writer. Will you tell them - challenges the listener to live his faith and take it past the front door.
