Details: My name is Kerwin Williams I grew up in North Memphis and Smokey City around such people as Big Tiece, Jucie J, Pretty Tony, and DJ Tickin' Tim. When Three Six says they hung out on Tieces porch they aint lying, every one got full over there including me. Every one had dreams of getting' out of the hood and most of us went in our own directions. Rapping wasnt making me no money so I went into radio,. I got the job at a sports talk station cause I knew my way around a sound board thanks to Archie over a Waylo Studios, and became the youngest producer hired at that radio station at the time and since I have worked in television and radio most of my life and I was just rapping on the side for the hell of it. Then I decided to make my own CD were recording at On The Strength I was know as Busy K and would record songs over there a lot. We did some shows at 380 Beale I really enjoyed it doing shows and stuff but I wasnt getting paid. Partially because my management was either a joke or a crook or both. So I gave it up for a while and went back to working in radio. Well I got tired of that again and decided why not make another album this time no managers screwing with my ideas thats all they do is f---k up a good thing any way. So this is my truly solo project All Me Baby KSW Booty So Delicious.
