Crossing the boundaries between classical and metal. Dark, experimental, and truly unique. 16 MP3 Songs CLASSICAL: Postmodern, METAL/PUNK: Dark Ambient/Noise Show all album songs: The Burning Songs Details: This debut release by contemporary composer Nick Vasallo truly blurs the line between the concert hall and rock club. Vasallo's musical vocabulary ranges from extremely minimalistic to radically chromatic and tonally adventurous. Aspects of archaic (Middle Age and Renaissance polyphony), post-Romantic, Minimalist, Impressionist, Heavy Metal, and Taiko are all present within this CD. His unique style has been dubbed as "Eclecticism", which is his (generation's) reaction to the long winded and patriarchal Western Art music tradition. Although each track showcases Vasallo's ever-changing technique and thought process, he consistently reveals his distinct voice clearly. This CD is not just for the adventurous, but is suitable for anyone that craves variety and drama.
