Unpretentious Folk/Rock, emotionally charged and bittersweet. Music you'd want to have a personal tender moment to. This album is done Acoustically, But is usually played rougher live. 13 MP3 Songs  
ROCK: Folk Rock, ROCK: Acoustic Details: I started writing when i couldn't find anything else on the radio to listen to. So i basically composed music to my thoughts about life, friends, regret, seeing hope in depression, and of course, love. Why would i leave that out? I would recommend "Moments", "The right way around". From then on, it's all yours.
