Newsroom - Responsive News & Magazine Theme

[DOWNLOAD HERE](#)

A clean and sharp theme for news sites, magazines or blogs. Newsroom gives you many ways to show your posts. With a good structure and ultra responsive layout, the viewing and reading experience is superb on all types of devices. A ton of options gives you the ability to get the theme just as you want it with a few simple clicks. Great Article Formats Newsroom supports all 10 post formats, including video, audio, gallery and more. Single posts can be set to show as full width, full width post format or default. You can show post image thumbnails, post formats or neither on home/search/archive. (The theme demo uses the thumbnail option) New! In version 1.3 Weve listened to your requests 1120px width styles (view on live preview) Frontpage widget blocks above and below recent posts [screenshot] Related posts module [screenshot] Layout option: Show title on top of featured slider image [screenshot] Layout option: Show small single post titles (not full width) [screenshot] Category descriptions & more Theme Features Ultra responsive layout 300px sidebar (scaling down to 220px) Great typography Unlimited color options Unlimited widget sidebars 10 blog post formats 6 page layouts 3 single post layouts Great shortcodes Footer widget areas Disable or enable sidebar for mobile layouts 2 full-width widget areas in header and footer (for ads) 4 additional base styles Air Framework .pot file for localization available SEO optimized Logo uploader, Favicon uploader Option to have sidebar left or right Social links module Custom tab/list widget Demo page content .XML file ...and much more Note: this demo uses Digg Digg for social sharing buttons example.
