

## No More Grey Screen

[DOWNLOAD HERE](#)

No More Grey Screens is an easy PHP solution that allows you to replace the grey windows displayed when a user tries to access a password protected area. The script is super easy to be used in situations where the authentication is controlled by .htaccess (Apache authorization) You can use the solution even with folders that are password protected by cPanel, or any other scripts like \* JVManager(r), \* DELAVO(r), \* Instant Membership Site Creator, \* and in general with any situation where Apache authorization is being used. All you have to do is to upload some files, rename .htaccess to .htaccess\_old, run the script, and that's it! That's it! Why do you NEED it? Mainly for 2 reasons: \* Your members will be able to access your members area easier. \* But most importantly: Without the No More Grey Screens script you're LOSING money... Why? Because you cannot monetize the login page of your members area. Think about it... That login page is one of the most visited pages on your server. Without the No More Grey Screens your members just use their codes and login. With the No More Grey Screens your members can also: \* Read any news you may include on that page. \* Click on any banner you may include on that page. \* Buy any other product you offer to your members! Stop Losing Money! Get the No

More Grey Screens solution today! For more Deals, Visit My tradebit Store: [sale.tradebit.com/](http://sale.tradebit.com/)
