

# Stochastic Differential Equations

[DOWNLOAD HERE](#)

C. Doleans-Dade: Stochastic processes and stochastic differential equations.- A. Friedman: Stochastic differential equations and applications.- D.W. Stroock, S.R.S. Varadhan: Theory of diffusion processes.- G.C. Papanicolaou: Wave propagation and heat conduction in a random medium.- C. Dewitt Morette: A stochastic problem in Physics.- G.S. Goodman: The embedding problem for stochastic matrices.  
EAN/ISBN : 9783642110795 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Cecconi, Jaures
