Rock-n-roll + white trash blues + honky tonk + a dash of humor = HONK-N-ROLL. 11 MP3 Songs  
COUNTRY: Country Rock, ROCK: Americana Details: Mississippi's own Buffalo Nickel have been writing and performing together since 1999. They have taken their brand of honk-n-roll music from Austin, TX, to New York City. Their debut release on Plowhandle Records, UP ON BLOCKS, showcases their wit and their range of musical influences. Their lyrics contain a mix of irony and straightforward honesty as they discuss El Caminos, Jesus, Southern politics, Y2K, grandmothers, Willie Nelson, broken hearts, and more. And their music sounds like Hank, Creedence, Flatt Scruggs, and Ozzy jamming at 2 a.m. in a concrete block roadhouse somewhere in south Mississippi.
