Los Angeles indie pop trio Gazz successfully blend thier hook-filled guitar rock stylings with distinctive vocals to create a rocking yet emotional and thoroughly enjoyable debut CD. Recorded in Silverlake CA one week after the band's formation,the CD re 10 MP3 Songs ROCK: Modern Rock, ROCK: Emo Details: Indie meets arena rock. Gazz have a sound that is all at once familiar and fresh with intimate vocals and melodic hooks that won't let go. Alluringly quiet and infectiously loud, they are unabashedly rock, hauntingly moody, unapologetically pop, and always absolutely honest in their delivery of well crafted, ultra-melodic and highly memorable songs that give voice to thoughts that we've all had, feelings we've all felt and dreams that we've all dreamt. Compared aesthetically to The White Stripes; to Smashing Pumpkins by way of their aggressive guitars, emotional nature and sometimes dramatic production; and to The Pixies indie- pop sensibility and creamy/crunchy vocal textures, Gazz are much bigger than the stages they grace.
