This re-release includes the bonus track "Carry Me". Mimi originally recorded Turning Tide in 1990, with music written before and after the devastating experience of losing all her possessions, home and business, to fire. This recording is full of the personal and universal qualities of expression, of the spirit that Mimi embodies best--making the most of whatever is presented to her, finding the positive, turning it into song. This recording speaks to Mimi's personal, global and universal views of life and love on the planet. The music is heartfelt, reflective, loving, fun and expansive-a rich nouveau-folk-jazz genre mix. The recording has been re-mastered (by Randy Crafton at Kaleidoscope Studios, Jersey City) and is presented in an environmentally friendly state-of-the-art "soft-spot" package. The graphics were designed by Christine Baczewska, who also arranged and performed harmonies on Turning Tide. Mimi's mother Mary's painting "Wave", graces the cover. A portion of every sale will be donated to The Afghan Women's Mission by Mimi, in cooperation with Oasis CD Duplication. The bonus track, "Carry Me," was originally recorded on the 1993 Tsunami Records Inc. compilation release, Family of Friends. A favorite of concert audiences and radio djs, "Carry Me" adds another dimension to the emotional landscape of the CD and gives listeners something new to round out Turning Tide's lineup. The re-release of Turning Tide invites old friends and new to join Mimi and her music. Make the journey from grief to hope, from longing to exhilaration.
