Details: Riding a tide of mutilated beats and hordes of Russian breakcore fans chanting "Amen", Mr. Messiah has emerged from the hungry dead to become St. Petersburg's dubsteb Christ. With his latest release "The Dublab" Mr. Messiah slows the pace down to shambling crawl. The beats crumble and decay like the last recognizable remnants of your dead ex's face. The Dubby atmosphere will cloud your brain with radioactive dust and have the room shuffling like the walking dead. The Dublab invades the vast expanses of space that is your brain and replaces it with eight and a half pounds of rotted meat, your only thought is "Hunger"! These are club bangers for the undead. This is the soundtrack to your pilgrimage from the dusty, burnt out remains of civilization.
