Rockin'Blues with a ton of vocal soul. Primarily electric and slide guitars with a happening horn section on some of the cuts. 13 MP3 Songs BLUES: Rockin' Blues, BLUES: Blues Vocals Details: Here's the deal. I was born a poor white child (just like everybody else)in the Appalachian Mountains of Southeastern KY. My folks moved to Ohio when I was two years old. Somewhere around the age of eight years old I became severely addicted to music. My father liked bluegrass and country, my mother liked rock and the pop music of the day. The one musical style we all agreed upon was the blues. What I'm doing now both in the studio and live is playing what comes naturally to me, that being a fusion of all the styles mentioned above. My music fits in whatever category, you decide.
