

# Mp3 Ron Imhoff - Elektromuze Volume One

A unique style of techno electronic dance music from a multi-instrumentalist. 8 MP3 Songs

ELECTRONIC: Techno, ELECTRONIC: Trance Details: Elektromuze Volume One is the first of three unique techno electronic CDs from Ron Imhoff. Unlike my ambient "Chemistry" CD efforts (reference: kookiejar.com), Elektromuze is beat driven electronic dance music consisting of manual and midi driven synthesizers, standard and Roland GR-20 synthesized guitar and numerous synthesized drum programs. While many electronic music tracks of the current era contain repetitious looping structures and wave and echo effects, Elektromuze tracks were composed with a greater focus on classic verse and chorus sections reminiscent of songs with lyrics. This approach, along with the use of guitar and other instruments not often found in techno, is what allowed me to create the unique Elektromuze sounds. I invite you to experience, Elektromuze Volume One using the "listen" features on this site. You are also invited to visit and add yourself to the Elektromuze Myspace site at [myspace.com/elektromuze](http://myspace.com/elektromuze) Thanks for supporting independent music. Peace - Ron Imhoff Kookie Jar Records
