Scott Donaldson is a new comer to the song writing industry. He began writing only three years ago after crossing paths with, now close friend April Amick, with Queen Of Hearts, Nashville, TN. She and I met as a blind date and hit it off as musical buddies more than anything. We co-wrote several songs for her to sing one of which is titled, Turn It Around and is on Queen of Hearts latest CD, Pink Boots. Originally from North Florida and a musical family of 3 sisters and 1 brother, There was always a guitar laying around on the couch and my sister Julie showed me three cords one day and I took it from there. I never thought I would be writing a bio for my own CD. Thank You God. All material for the songs came from personal experiences and were written by Scott himself. They are a great blend modern country, a little bluegrass and a song he wrote to sing for his church Dont Pass me By. Scott is a gifted song writer, he gives you a true look into his heart as a father who has a daddys girl in his life in the song, Lucky To Be Your Dad, says fan Jamie Spires. Thus far Scott has not opened for anybody famous but performs solo and with the band, Coconut Cowboy Band on a regular basis in the midlands of South Carolina. They play local restaurants around Lake Murray and local festivals. High School friend Bart Goodson remarks, Is that you really singing and did you really write those songs, He says that Scott is definitely on his way.
