Some Sinatra style Jazz, some country, some blues, some folk, mostly big band accompaniment 12 MP3 Songs JAZZ: Jazz Vocals, EASY LISTENING: Crooners/Vocals Details: I've been performing the great standards for many years. Songs written by the legendary writers of our time - Cole Porter, Irving Berlin, Johnny Mercer, Harry Warren, Harold Arlen, George Gershwin and more. The tunes penned by these greats have been recorded by the best -- Sinatra, Ella, Perry, Vic, Tony, Sarah and maybe even ME!! My name is Sid Cohn and I've performed in venues like cabarets, night clubs, musical theatre, and even a full length feature film. And yes I've even performed at Retirement homes, house parties, and just anywhere I can, because I love to sing and perform and hope to help preserve some of the tunes from the Great American Songbook, those wonderful compositions that are treasures and continue to give so much pleasure to an appreciative and sophisticated audience. My CD, "POTPOURRI" is comprised of a few different musical styles including, Jazz, Country, Blues and Folk. I wanted to express my versatility to perform different genres. I hope you like it. So far, those that have heard it simply love it!!
