

Mp3 Steve Kusaba - Falling

[DOWNLOAD HERE](#)

This CD is Omni in style with a Classical leaning. It is very spiritual. 15 MP3 Songs CLASSICAL: New Age, JAZZ: Jazz Fusion Details: Falling is about a person at the end of their life, where they experience the decline in their senses as hearing and seeing fade. But rather than emphasize the loss of these qualities it is a celebration of the great experiences that preceded the decline. A joy in the great accomplishments and exultation about the ones being achieved. The songs are in pairs. First comes a classical version followed by an instrumental interpretation. All parts were done by the author except the female vocal on the last song which was done by the talented Angie Call. The one thing that I really love from this CD is the textural achievements attained from the given setting.
