No Money - No Experience - No Skills - No Brain Required! New Release From: Timm Miller Dear Friend, Why do things the hard way when we live in the Internet age!? Including making money!? I love the Internet! The Internet has made life SO easy...in SO many ways. Not only for me, but for you too and so many others around the world. Making money has become easier too, thanks to the Internet. I make more money online now than I ever dreamed of! I work from home a few hours a day on my computer while I play around on Facebook and Yahoo Auctions looking for stuff to buy. I go to bed and wake up to see that I made \$287 last night when I

was sleeping and...you know what? The feeling of making money from my computer never gets old! I love the Internet! But it didn't always used to be this good...unfortunately. And, it isn't this good still for a lot of newbies online...even though it should be. My Internet beginnings were slow. It took me over 6 months to make my first \$5 sale. Sure I was happy when I made my first \$5, but I wanted more! I make much more than that now, but I was hungry to make more money when I was a newbie. Sound familiar? The Internet Dream! If I know you, you have a dream of making money online. You see and hear other regular people making money online and imagine yourself making money too. Forget the "make \$3000 a day doing nothing" lies and aim for something realistic. Maybe you'd be happy making just \$5 a day or maybe you want to an extra \$50 a day? I'm not going to butter things up for you telling you that you can "retire early" like the typical "guru" would. I'm not like those gurus who only care about how much money you can unload on them. I actually want to help you realistically. I know there are heaps of people online who just want to make a little pocket money from their computer in thier spare time. And I know the internet, and an extra \$50 per day is very acheivable...even for a complete beginner. What would you do with an extra \$50 a day? *Eat out at a fancy Chinese restaurant tonight....and every night! *Buy a Playstation 3 next week....and a new game for it every week! *Go to Disneyland with your family next month....and Knott's Berry Farm the following month! *Pay the monthly car loan payment on a new supercharged sports car! *Take your family on an overseas vacation this coming summer! Some say that money isn't everything, but it sure makes life more fun! And guess what, making it can be fun too! The possibilities are endless when you have extra income, and the chance to do so is right in front of you. It's called the Internet! There are big bucks (and small bucks) being made on the Internet everyday! Why aren't you collecting your share? Well it's time you start earning your share, and I'm going to help you. No More Excuses! Too many times I get emails from desperate people with high hopes of cashing in online and there is a common theme within all their problems. They simply don't know WHERE or HOW to start and don't want to waste MONEY! I had dozens of people begging me to show them ways to make money online. So I'm giving it to them. I put together the "ALL-IN-ONE" resource that shows even the most clueless newbie where and how to start making money from scratch wihout any start up costs whatsoever! Imagine if you could make money with such ease that ANYONE with a computer, internet connection and a few spare hours a day can do. *100 PERCENT FREE or next-to-nothing start up costs *Don't require a website of your own *Don't require

ANY technical knowledge whatsoever *So EASY that a complete Internet newbie can do it *No selling or marketing skills or experience necessary *Can be done part-time from home or anywhere! "But Can A Broke Loser Like Me Really Do It?" You'd be surprised at some of the guys I know who are making money online. Take me for instance. I didn't go to university...I spend too much time playing with cars, going to karaoke boxes and checking my Facebook profile. If I can make money online, ANYONE can!
