This anthology gives a whole new meaning to the phrase animal attraction. Shifting features four homoerotic novellas that bring out the beast in all of us, from the slinky sensuality of the big cat to the tight social structure of the wolfpack, these stories show us what it's like to be a little more, or less, than human in a human world. Ranging from colonial India to the gritty streets of the modern city, the settings have something for everyone, and the heat has less to do with the rainforest than it does the relationships forged between these extraordinary characters. Let your inner wild child out. Don't miss Shifting!
