

Soft Methods For Handling Variability And Imprecision

[DOWNLOAD HERE](#)

1; Title Page; 2 2; Preface; 6 3; Members of Committees; 8 4; Contents; 10 5; List of Contributors; 15 6; Part I
Invited Papers; 23 7; Imprecise Probabilistic Prediction for Categorical Data: From Bayesian Inference to
the Imprecise Dirichlet-Multinomial Model; 24 7.1; Introduction; 24 7.1.1; A Story with (Too) Many
Rabbits; 24 7.1.2; The General Problem; 25 7.1.3; Laplace's and Other Bayesian Rules of Succession; 25
7.2; Bayesian Predictions; 26 7.2.1; Link between Past and Future Observations; 26
7.2.2; Dirichlet-Multinomial (DiMn) Prior and Posterior; 27 7.2.3; Some Properties of DiMn Distributions; 27
7.3; The Imprecise Dirichlet-Multinomial Model (IDMM); 28 7.3.1; The Idea of an Ignorance Zone; 28
7.3.2; Definition of the IDMM; 28 7.3.3; Properties of Inferences from the IDMM; 28 7.4; References; 30
8; Fuzzy Bayesian Inference; 31 8.1; Introduction; 31 8.2; Fuzzy Data; 31 8.3; Fuzzy Probability
Distributions; 32 8.4; Bayes Theorem for Fuzzy A-Priori Density and Fuzzy Data; 33 8.5; Applications of
Fuzzy A-Posteriori Densities; 34 8.5.1; Fuzzy Confidence Regions; 35 8.5.2; Predictive Densities; 35
8.5.3; Probabilities of Parameter Hypotheses; 35 8.5.4; Bayesian Decisions Based on Fuzzy Information; 36
8.6; References; 36 9; Soft Methods for Treating Uncertainties: Applications in the Field of Environmental
Risks; 37 9.1; Introduction; 37 9.2; Different Types of Information Warrant Different Methods of Information
Representation and Propagation; 39 9.3; Example Applications; 40 9.3.1; Soil Contamination; 40
9.3.2; Groundwater Contamination; 42 9.3.3; Risks Related to CCS: A Climate Change Mitigation
Technology; 43 9.4; Discussion and Conclusions; 45 9.5; References; 46 10; Robert F'eron: A Pioneer in Soft
Methods for Probability and Statistics; 48 10.1; Robert F'eron's Career; 48 10.2; Contributions to Probability,
Information, Correlation and Generalized Distances; 48 10.3; Contributions to Fuzzy Set Theory and Fuzzy
Random Variables; 50 10.4; Conclusion; 53 10.5; References; 53 11; Part II Foundations; 54 12; Relating
Prototype Theory and Label Semantics; 55 12.1; Introduction; 55 12.2; An Overview of Label Semantics; 56
12.3; A Prototype Theory Interpretation of Label Semantics; 58 12.4; Conclusions; 61 12.5; References; 61
13; Fuzzy Probabilities Based on the Likelihood Function; 63 13.1; Introduction; 63 13.2; Hierarchical
Model; 63 13.3; Fuzzy Probabilities; 66 13.4; Imprecise Probabilities; 68 13.5; Conclusion; 69
13.6; References; 69 14; Possibility Measures in Probabilistic Inference; 71 14.1; Introduction; 71

14.2;Coherent Assessments and Their Enlargements;72 14.3;Weakly Logically Independent Partitions;73
14.4;Possibility as Enlargement of a Coherent Probability;74 14.5;From a Coherent Probability to the
Upper Possibility;75 14.6;References;77 15;Non-well-Founded Probabilities on Streams;79
15.1;Introduction;79 15.2;Ordering Relations on Streams and p -adic Numbers;80
15.3;Non-well-Founded Probabilities;82 15.4;Conclusion;85 15.5;References;85 16;Relating Epistemic
Irrelevance to Event Trees;86 16.1;Introduction;86 16.2;Coherent Lower and Upper Previsions;87
16.3;Event Trees;87 16.4;Imprecise Probability Trees;88 16.5;Forward Irrelevance in Event Trees;89
16.6;Conclusions;91 16.7;References;93 17;Probability Revision, the Uniformity Rule, and the Chan
Darwiche Metric;94 17.1;The Commutativity Principle;94 17.2;Terminology and Notation;94 17.3;Bayes
Factors and Commutativity;95 17.4;The Chan-Darwiche Metric;96 17.5;References;98 18;Part III
Statistical Methods;100 19;Statistical Inference;101 20;On Nonparametric Predictive Inference for
Bernoulli Quantities with Set-Valued Data;102 20.1;Introduction;102 20.2;Nonparametric Predictive
Inference for Bernoulli Random Quantities;103 20.3;Set-Valued Data;104 20.4;Acceptance Sampling;107
20.5;Concluding Remarks;107 20.6;References;108 21;Inferring a Possibility Distribution from Very Few
Measurements;109 21.1;Introduction;109 21.2;Possibility Distribution Versus Confidence Intervals;110
21.2.1; EAN/ISBN : 9783540850274 Publisher(s): Springer, Berlin Discussed keywords: Soft Computing
Format: ePub/PDF Author(s): Kacprzyk, J. - Dubois, Didier - Lubiano, M. Asuncion
