Bopup Observer just receives messages and files, designed for alerting, urgent and emergency notification. This secure one-way instant messenger is designed to receive messages and documents over LANs, business networks and the Internet. Bopup Observer is a quick and efficient solution for alerting and urgent messaging purposes. The messenger is based on a fully managed client/server IM platform that makes it possible to log and archive all messages, group users, send offline and news messages, deliver important files and documents. It fully supports the Terminal Server and Citrix environments and can be configured to run in the confirmation mode.
