For Dance Volume 1, his first of two volumes of dance music, George draws inspiration from the legendary 'Kraftwerk', 'Tangerine Dreams', 'Human League', and 'Pink Floyd'. The music featured in this electronic dance album is influenced by 80's electro pop as well as psychedelic ambient trance sounds, blended with progressive, house, techno and break beats. Also featured are the South African Zulu choir and Indian tabla in the R'n' B track as well as the electric guitar nuances in the track Rock Guitar. The classically trained composer maximises the use of harmony in the track Follow, where the London choir and the lush synthesiser pads form, 'The Wall of Sound', as a background to the trip hop dance pattern. The opening track People takes the listener back in time to the 80's with the sounds of the mighty 'Wave' synthesiser in the background, accompanied by the various nuances of drum programming. Both People and Peace, impart a feeling of happiness and melancholy at the same time. Brighton with the breath-taking arpeggios has a 90's dance style. DJSynth is a tribute to the founders of electronic music, where retro dance patterns alternate with modern DJ vinyl patterns.
