Gary Lenard Moore has a quiet but long history in the music and recording business. Those who have had opportunity to see Gary perform have agreed upon one thing, "He sang!" Gary says he has a strong desire to teach, and to share his thoughts, so music as well as visual art allows him to do such. "SHAPES OF LOVE" is one of his latest creations. In this album you will hear his life unfolded in song, since he writes from his life's experiences. You will hear one of these experiences in the song "YOU ARE THE RIVER," which is a story of first love gone bad. Asking what moves him, he says that love is the driving force behind his life, and love is what he enjoys writing and singing about. Gary likes to dwell in a mixture of styles, and this album, SHAPES OF LOVE, demonstrates this fact. He claims he has just begun to sharpen his tools for his career, and has a desire to improve each day he lives. Let's keep an eye on this guy!
