Americana, blues infused 1 MP3 Songs in this album (3:53) ! Related styles: POP: Folky Pop, URBAN/R&B: Urban People who are interested in Neil Young Keith Urban should consider this download. Details: I became interested in music at an early age, watching my father play what he called Hawaiian guitar (played on his lap with a metal slide) and my grandmother who played ragtime piano. Influenced by guitarist such as Duane Allman and Eric Clapton and groups such as Crosby Stills Nash and Young. Music theory and working at a Public Radio station exposed me to many musical styles in college. Songwriting and playing in local clubs has always been a favorite.
