Alternative soul space music with very interesting lyrics and hard, soft rough edges. 10 MP3 Songs
ELECTRONIC: Experimental, ROCK: Modern Rock Details: Hi, my name is Jim Magnant. I live in Jericho, Vermont and I want to thank you for listening to my C.D. I am in love with music. What really gets me is the beauty and power of some music and its ability to transcend this life. I love the feeling of being transported by songs especially songs with interesting lyrics. This has been my goal to write and produce such music and it would be doubly sweet to make a living at it, which is why I'm trying to sell them. My inspirations come from observations and my little struggles in life as well as the prophecies in the Bible and my belief in deliverance by faith in Jesus Christ. I am not what you would call a religious person but the Lord has put his word in my heart and regardless of my success in this world, no one can take that away from me. I don't mean to sound trite; I enjoy a very full life and I plan to release as much music as I can and to try to improve with each one. This is my second C.D. I have not put the 1st one out for sale yet but I'll be having more on the way.....whoever you are, enjoy! Overcome your obstacles and Thank You.
Sincerely, Jim
